

Public Notice of RM398 Flooding:

The RM of Pleasantdale would like to remind all residents that multiple roads throughout the RM are currently closed and/or flagged from high water levels due to spring run off and flooding.

For Public Safety, we ask the following:

- AVOID unnecessary travel. If travelling is required, use caution as conditions can change quickly,
- RESPECT the posted signs and barricades and use alternate routes,
- ROAD INTEGRITY: Avoid driving through flooded areas (washouts, water running over road) as infrastructure may be compromised and poses a hazard (these may not be visible at the surface). Compromised infrastructure can create sink holes without warning.

Your safety and the infrastructure are a primary concern, and we are monitoring the roads continuously. We ask that you report any unidentified (unmarked) road damage, drainage concerns or other issues to the RM office 306-874-5732 as soon as possible.

We appreciate your continue support and cooperation as we work through these seasonal challenges. Restoring these areas to safe conditions will occur after the water recedes.

Road Closures as of October 20th, 2026 until further notice.

(1) Twp Rd between RR2182.4 & RR2183(Hwy 6)
(also known as mile 622)

** Plan extra time to detour as applicable

***** SEE ROAD CLOSURES HIGHLIGHTED IN ORANGE BELOW*****
